©AMERICAN AUTOMOBILE ASSOCIATION

WITHIN its frame of river, sea and canyon, Oregon presents a picture that is rugged, yet exquisite. Rich in contrast, it ranges from crumpled fields to silken ocean beaches, from the sandy depths of Crater Lake to the icy summit of Mount Hood. Broken, folded or blasted into being by volcanic action, the state's many faces have been softened by time, vegetation and the element finally modified by the presence of man.

Once only a hope at the end of the Oregon Trail, the Beaver State now leads the Nation in livestock production. Pretty Portland nearly bursts

gon roses and commerce. Pendleton is famous for its woolens and its Roundup, one of the biggest rodeos in the Northwest. Each summer Ashland goes Elizabethan with the Oregon Shakespearean Festival. The Columbia River Gorge, its south flank festooned with waterfalls, provides one of the loveliest scenic drives in the state.

Hunting, fishing and winter sports are major recreational pastimes. Antelope, deer and elk are common and the Columbia is one of the Nation's great salmon streams. Skiing is excellent in the Cascades and Blue Mountains.

TOLL FACILITIES BRIDGES AND FERRIES

Columbia River

Astoria, Ore.—Megler, Wash.: Astoria Bridge. Car \$1.50. Trailer and pick-up camper \$2 to \$4.

Cascade Locks, Ore.—Stevenson, Wash.: Bridge of the Gods. Cars 50 cents. Car and trailer 75 cents.

The map illustrates the Alberni-Clayoquot region, showing the Alberni River and its connection to the Strait of Juan de Fuca. Key locations marked include Port Alberni, Hilliers, Coombs, Parksville, and Nanaimo. The Alberni Highway (Highway 4) and the Nanaimo Highway (Highway 19) are shown. The map also features a scale bar and a north arrow.

WASHINGTON

214

DIVIDED east and west by the Cascade Mountains, yet linked by the broad arcs of the Columbia River, Washington wears two faces. On the west it is a varied landscape of timbered mountains, deep valleys, torrential glacial streams and island-dotted bays. The eastern face is a mosaic of black lava formations, wide coulees silver-green with sage and miles of perpetually mobile wheatfields. While the west receives moisture from the ocean in the form of the fabled Washington rains, much of the semiarid east relies on irrigation. Grand Coulee, Chief Joseph, Rock Island and other dams on the Columbia supply the water that has changed east-central Washington from sage-grown desolation to verdant productivity.

Rising from 4,000 to 8,000 feet higher than the surrounding hills, Mounts Adams, St. Helens, Rainier, Baker and Glacier Peak are the crown jewels of the Cascade Range. Robed in snow now, these volcanic peaks are merely sleeping; steam caves and other thermal phe-

nomena assert clearly their relationship to the Pacific "Ring of Fire." Different in character are the Olympic Mountains, the jagged core of the Olympic Peninsula. Mount Rainier National Park, North Cascades National Park and Olympic National Park preserve portions of these unique alpine areas. Also, the Pacific Crest Trail follows the Cascade summits on its still incomplete route from Canada to Mexico.

In addition to mountain climbing, Washington offers some of the finest inland boating waters in the world on Puget Sound. There are abundant opportunities for winter sports, fishing and hunting.

The metropolis of western Washington is Seattle. One of the world's great seaports, it commands Elliott Bay and Lake Washington from its throne of hills. Industry, commerce and culture convene here and in Tacoma, government reigns in Olympia. Spokane is the nerve center of the eastern Inland Empire, which includes part of northern Idaho.
